Adding a Microsite to Your Home Screen - iOS

Follow these steps to add your organization's microsite to the home screen of your iOS device. This will allow you to check the daily on-call and month view calendars for your organization.

- 1 Open your organization's microsite link in Safari.
- 2 Tap the **Share** button at the **bottom** of the page.
- 3 Tap **Add to Home Screen**.
- 4 Change the description to and tap **Add**.
- 5 The bookmark you created will appear as an app icon on your home screen.
