

TigerConnect Physician Scheduling

Mobile App for Schedulers

The TigerConnect Physician Scheduling app for mobile allows schedulers to make on the fly changes to their organization's schedule, respond to provider requests and navigate between multiple organizations and/or groups.

Download and Install the App

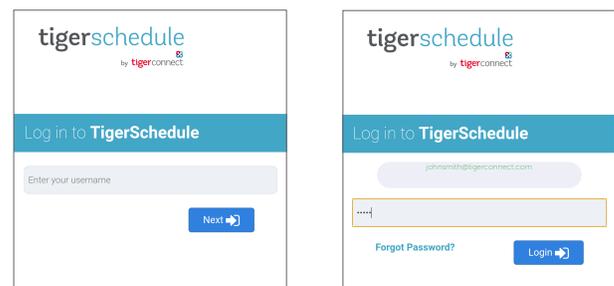

Go to the App Store (*Apple*) or Google Play (*Android*) and search for **TigerConnect Physician Scheduling**.

On iOS, tap **Get**. (*You may have to enter your Apple ID and password*).

On Android, tap TigerConnect Physician Scheduling then **Install**. (*You may have to enter your Google*

Log In

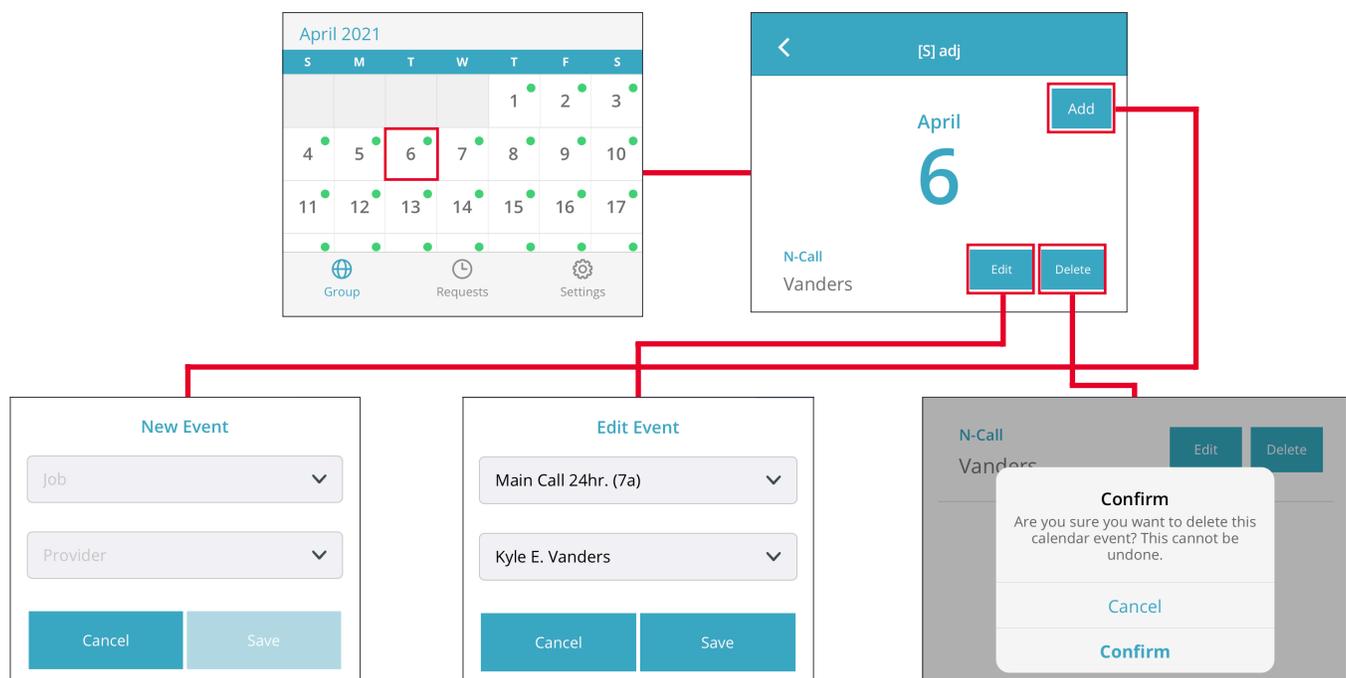

Enter your scheduler account username and password to log into TigerConnect Physician Scheduling on iOS or Android.

Editing the Schedule in the TigerConnect Physician Scheduling Mobile App

Login to the mobile application and tap on the **Group** tab at the bottom of the screen. Tap on a date to see the schedule for that day.

Click on **Add** to create a new assignment, **Edit** to change the Job and/or provider assigned or **Delete** to remove this assignment.

Mobile App for Schedulers

Responding to Provider Requests

Tap on the **Requests** tab at the bottom of the screen to see Pending Requests. Tap **Update** next to the provider request you would like to **Approve** or **Deny**, then tap **Confirm** in the pop-menu that appears and then **Save** at the bottom of the screen.

Navigating Multiple Organizations

If you are a scheduler for multiple organizations, or if you are a part of a scheduler as both a scheduler and provider, you can go to **Settings** at the bottom of your screen and tap **Load Schedule** for the calendar you wish to view as a scheduler or provider.

As a scheduler, you can navigate between your organization's different Groups by click on the dropdown menu at the top center of your screen while in the **Groups** tab. The **[S]** in front of Group name indicates scheduler account.
