

TigerConnect Physician Scheduling

Text Reminder Notifications

Schedulers

To get started with setting up text reminder notifications, log in to the TigerConnect Physician Scheduling web application and go to:

Settings > Notifications.

Click on **Create New Reminder** at the right of the screen.

Create/Edit Notification

1. Compose the text message reminder.
2. If you are a Scheduler, select the provider from the dropdown menu.
3. Choose the amount of time prior to the start of the shift that this message will be sent.
4. Select the Job.
5. Input the providers number.
6. Select for this reminder to be active or not.
7. Click Save.

Your text message reminder has been created. From here you may Delete or Edit to change to not active or Test this reminder, which will send a message the intended recipient.

Providers

To get started with setting up text reminder notifications, log in to the TigerConnect Physician Scheduling web application and go to:

Whiteboards > Notifications.
