

## Healthcare's Most Robust & Widely Adopted Secure Messaging Solution

- Convenient, efficient, text-based communication
- Photos, videos, and file attachments
- Secure, HITRUST-Certified, and HIPAA-Compliant

### Reliable, easy-to-use communications built for healthcare

The TigerConnect Clinical Collaboration Platform – Standard edition is an easy-to-use messaging app for smartphones and workstations, improving care team communication and collaboration while achieving HIPAA-compliance.

The solution is cloud-native with 99.99% uptime reliability, enabling you to communicate safely and securely with colleagues at the point of care from your smartphone, tablet, or desktop.

#### Secure Text Messaging

HIPAA-compliant and HITRUST-certified, it lets clinicians and care teams communicate securely via encrypted text messages from anywhere at any time.

#### Full Administrative Control

The Standard edition lets administrators manage users, settings, and security policies through a comprehensive console. Quickly onboard users individually, by CSV upload, or through LDAP/Active Directory, and immediately revoke access for lost or stolen devices.

#### Enhance Essentials with Premium Features

Enhance your messaging experience with premium add-on features such as Message Archiving, Click-to-Call, answering service or pager integration, and Premium Support.

**Priority** messages stay highlighted and offer a unique alert for instant differentiation

**Broadcast** messages to the organization keep staff and departments informed and aligned

**Secure** messages remain private with end-to-end, full encryption

### TigerConnect Clinical Collaboration Platform – Standard offers:

#### Click-to-Call

Initiate calls to colleagues with a single tap

#### Quick Reply

Save time with custom, pre-typed messages for common inquiries

#### Auto Forward

Auto-forward messages to other colleagues when in Do Not Disturb mode

#### Forums

Have ongoing discussions with colleagues on specific topics

#### Delivery Confirmation

Instantly see when messages have been sent, delivered, and read

#### Message Lifespan

Limit time that messages remain accessible before automatic deletion

#### Message Recall

Recall a message and attachment before or after it has been read

#### Group Messaging

Create groups to improve workflow collaboration with read confirmation

## About TigerConnect

As healthcare's most widely adopted communication platform, TigerConnect uniquely combines clinical collaboration, alarm management, physician scheduling, and patient engagement in a single, easy-to-use, cloud-based solution. Trusted by more than 7,000 healthcare organizations, TigerConnect maintains 99.99% verifiable uptime and processes more than 10 million messages each day.
