

# Solving Clinical Workflow Inefficiencies with Improved Care Team Collaboration

Every second counts when it comes to patient care. Inefficient communication between care team members can have direct impacts on patient safety, operational effectiveness, and the financial well-being of the healthcare organization.

**Patient safety suffers when communication fails**

**80%**

of serious medical errors involve miscommunication during patient handoffs.<sup>1</sup>

**68%**

of clinicians are unsatisfied with communication processes during clinical workflows.<sup>2</sup>

## A communication and collaboration solution built to speed response times and reduce clinician frustration

TigerConnect solutions make healthcare communication easy by putting information, data, and alerts in the hands of care teams. Connect the entire care continuum through one unified platform, built for the way you work.

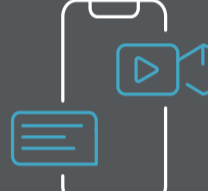

Real-time communication speeds workflows to improve patient outcomes and care team productivity

Seamless integrations route clinical data and information to the right care team members

Automated scheduling for physicians enables staff to always know who's on call

Easy to use patient engagement solution helps connect patients and providers via voice, video and text

By integrating with your hospital systems to break down information silos and push relevant data to care teams the moment it becomes available, TigerConnect solves clinical workflow challenges and allows the sharing of information in real-time.

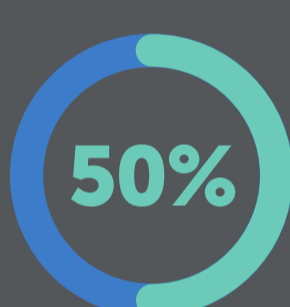

### Achieve Real ROI

Improve care team communication for life-saving impacts

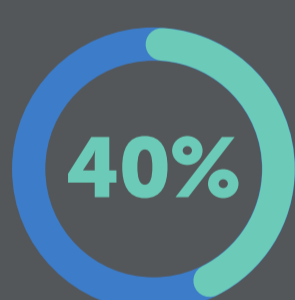

Clients who use TigerConnect have reported:

increase in ER capacity

faster door-to-needle time

reduction in sepsis mortality

improvement in ED consult response times

**2.5 min**  
reduction in code blue response time

**\$600k**  
savings from reduced readmissions

“

TigerConnect is a game changer... a demonstrable improvement in efficiency. It provides a platform for better and faster communication.

-Zachary Shinar, M.D.,  
Chief of Emergency Medicine, Sharp Memorial Hospital

”

## Maximize productivity with real-time communication from TigerConnect

Eliminate friction in healthcare communication by connecting your care teams, on-call schedules, and patient data in real-time.

Ready to streamline your clinical workflows?

Partner with TigerConnect to give valuable time back to clinicians.
