

Automated, Rules-Based Shift & On-Call Scheduling

TigerConnect® Physician Scheduling

Improve Productivity & Patient Care with Smarter Physician Scheduling

Creating and managing physician schedules can feel like a complex process when relying on spreadsheets, whiteboards, or outdated technologies that are time consuming, prone to errors, and can't adequately balance assignment distribution. As a result, these manual and inefficient processes negatively impact staff productivity, patient care delivery, and physician satisfaction.

TigerConnect Physician Scheduling was built to save time, improve workflow efficiency, and reduce physician burnout by automating the creation of equitable shift and on-call schedules and providing an accurate, easily accessible, single source of scheduling truth.

Automated Physician Scheduling

Save countless hours by automating the creation of fair and balanced physician schedules in minutes while ensuring rules, time-off requests, and preferences are considered.

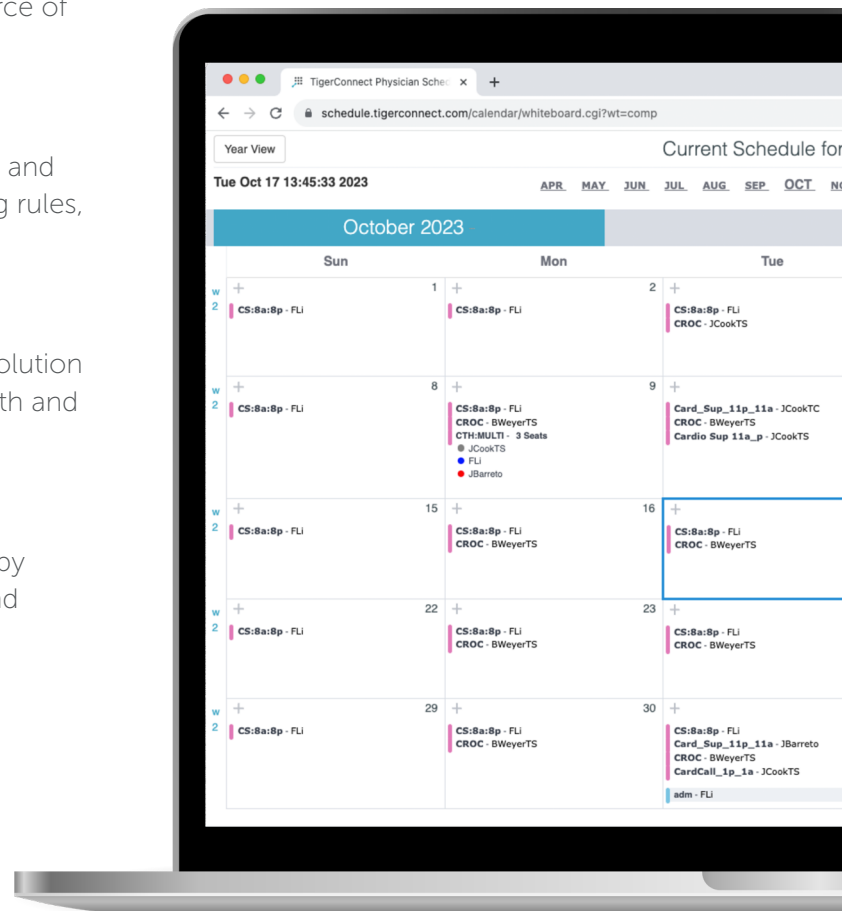

Accurate, Up-to-Date Schedules

Create and manage all schedules with a standardized solution to maintain an accurate single source of scheduling truth and eliminate inaccurate, outdated schedules.

Streamline Clinical Workflows

Minimize care delays and improve workflow efficiency by ensuring the right physician can be quickly identified and contacted for a consult.

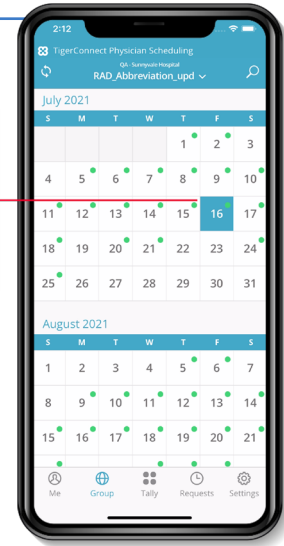

- Save time creating and managing on-call, shift, and block schedules
- Streamline workflows with up-to-date, easily accessible schedules
- Reduce physician burnout by enabling better work-life balance

Physician Benefits

Improve physician work-life balance with a scheduling solution that works for them – not against them.

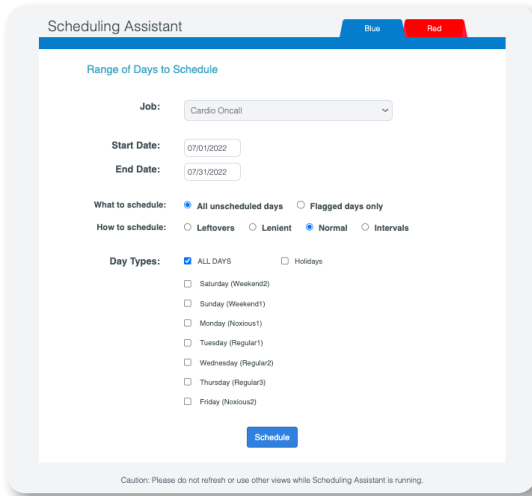

- Swap shifts, submit time-off requests, and view real-time schedule changes from anywhere
- Reduce physician burnout with scheduling rules that ensure assignments are distributed fairly and equitably
- Prevent physicians from being contacted when not on-call with schedules that are always accurate and up to date

Scheduling Benefits

Save time creating and managing schedules with a modern, intuitive solution that allows you to easily build and update schedules from anywhere, at any time.

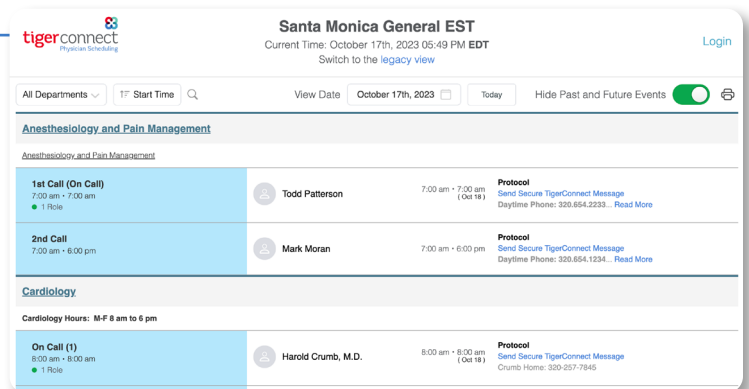

- Automate the creation of shift and on-call schedules in minutes with customizable rules that ensure organizational needs are met
- Manage all schedule changes with a centralized solution to eliminate inaccurate, outdated schedules
- Quickly create resident block and rotation schedules that adhere to duty hour rules and program requirements

Healthcare Organization Benefits

Improve operational efficiency and patient care by transforming your scheduling processes.

- Avoid care delays and ensure the right physician can be quickly contacted every time by integrating with TigerConnect Clinical Collaboration
- Reach physicians by their preferred method with custom contact protocols based on day or time
- Create a single source of truth by ingesting and merging schedules from other systems and facilities
